ABOUT

Backend engineer in deliberate transition to AI engineering. **15 years in international B2B operations** — supply chains, cross-border payments, risk analysis at scale — taught me to model domains before opening the IDE and to question requirements before implementing them. Completing a **TeSP in Programming and Information Systems at IPS** (Dec 2026). 640h curricular internship at Pipoca Ágil completed with 18/20. Co-founder of **ImplementIQ Systems**, with clients in production.

EXPERIENCE

Pipoca Ágil

Feb 2026 – Jul 2026

Curricular Internship · Full-Stack Developer · Remote (Brazil) · final grade 18/20

- Hexagonal Architecture and DDD on a real e-commerce project
- Schema migrations with Flyway; complete product catalogue
- Shopping cart (backend and frontend) with 7 Vitest tests
- MapStruct, JUnit 5, Jira, GitHub, Docker

Java 21 · Spring Boot · PostgreSQL · Flyway · Angular 21 · TypeScript · PrimeNG · Vitest · Docker

ImplementIQ Systems

Jan 2024 – present

Co-founder & Developer · Seixal, Portugal

- Tech consultancy for Portuguese SMEs, from client relationship to delivery
- **Sulav Sushi Bar** — bilingual PT/EN site in production, with Uber Eats, Glovo and Bolt Food
- **Wedding Clinic** — institutional site in development for a real client
